IMMEDIATE RELEASE

PTTEP to Continue Energy Sustainability and Education

DOHA, QATAR (9 November 2015): PTTEP showcased its commitment to being a leading organisation in sustainable exploration and production driven by technology and innovation by hosting the upcoming 10th International Petroleum Technology Conference (IPTC), scheduled to be held from 14 – 16 November 2016 in Bangkok, Thailand.

Hosting IPTC for the second time, PTTEP is committed to IPTC's technical, educational and integrated values as the largest multi-society and multi-disciplinary event in the Eastern hemisphere.

Following the closing ceremony of IPTC 2015 in Doha, Qatar, **Somporn Vongvuthipornchai – President and Chief Executive Officer of PTTEP** said, "It is important to continue educating ourselves, the community and the younger generation on how the oil and gas industry can help build a thriving and sustainable economic ecosystem. IPTC is vital in promoting technology dissemination and knowledge sharing on a global scale. This will help us realise and work for a sustainable future."

Themed 'Innovation and Efficiency Excellence for our Energy Future', IPTC 2016 will feature multiple high-level plenaries and panels, a multi-disciplinary technical programme and a state-of-the-art exhibition showcasing the latest innovations and technologies. Discussions will focus on how collaborations, education, innovation and technological advancements can help boost E&P operations globally and in turn, contribute to energy sustainability.

In line its commitment to education and broadening the knowledge base within the energy industry and business communities, PTTEP will also continue its efforts in conducting its business in an environmentally and socially responsible manner while ensuring industry collaborations and community outreach programmes are in place.

It is anticipated that over 4,000 energy professionals from around the globe will attend IPTC 2016.

PTTEP also participated in the IPTC 2015 exhibition and showcased its latest technologies and projects alongside **Qatar Petroleum International, China National Petroleum Corporation (CNPC), Japan Oil, Gas and Metals National Corporation (JOGMEC), Kuwait Oil Company, Saudi Aramco, Shell** and many more.

International Petroleum Technology Conference (IPTC) 2016

Host Organisation

Sponsoring Societies

American Association of Petroleum Geologists – European Association of Geoscientists & Engineers – Society of Exploration Geophysicists – Society of Petroleum Engineers
Registered Address: 16th Floor, Wing On Centre, 111 Connaught Road Central, Hong Kong

10th International Petroleum Technology Conference
14-16 November 2016 • Bangkok, Thailand

ABOUT PTTEP

PTT Exploration and Production Company Limited or PTTEP is Thailand's petroleum exploration and production company with strong commitment to explore, develop and produce petroleum in Thailand and other countries, as well as to invest in important strategic related businesses to strengthen national energy supply.

PTTEP has invested for 30 years, in the exploration and production of petroleum both in Thailand and abroad vigorously. The company concentrates its investment in high capacity petroleum fields that can contribute to the company's sustainable growth and at the same time create strong foundation for the country's energy capability. Currently, PTTEP has invested in 39 petroleum exploration and production projects in Southeast Asia, the Middle East, Africa, Australasia and North America. Furthermore, PTTEP has introduced unconventional E&P business in the company's operations, such as the Floating Liquefied Natural Gas Production: FLNG, the investment in Oil Sands fields, and the invention of new strategies and technologies to increase the volume of production and petroleum reserve as well as to increase the strength of the company and Thailand in the long run.

About IPTC

The International Petroleum Technology Conference (IPTC) is an annual event rotating between Asia Pacific and the Middle East. IPTC is organised to further the advancement of scientific and technological knowledge related to the exploration, development, production, transportation and processing of oil and natural gas.

The IPTC is a collaborative effort among the American Association of Petroleum Geologists (AAPG); the European Association of Geoscientists and Engineers (EAGE); the Society of Exploration Geophysicists (SEG); and the Society of Petroleum Engineers (SPE). The synergy of these four leading, individual member-driven societies provides the most comprehensive opportunity to form multi-disciplinary committees and an outstanding technical programme.
